

## Second AGATA-GRETINA tracking arrays collaboration meeting

Orsay, 4<sup>th</sup>-6<sup>th</sup> April 2018

SECOND CIRCULAR

The second AGATA-GRETINA/GRETA collaboration meeting will be held at Orsay on April 4<sup>th</sup> to 6<sup>th</sup>, 2018. The meeting is jointly organized by CSNSM Orsay (CNRS, France) and Argonne National Laboratory (ANL, USA). The scientific program will be devoted to discussions about common challenges related to tracking arrays, including the physics, technical details and analysis of data from these arrays.

**Important:** A web site, <https://indico.in2p3.fr/event/16944/>, is now available for registration. A detailed program will appear as it becomes available.

### SCOPE and TOPICS

*I-Review of AGATA and GREINA/GRETA projects*

*II-Review of the decisions made during the first meeting*

*III- New algorithms, new basis developments/improvements for the decomposition/PSA and tracking. Simulations and performance of the arrays.*

*IV- Electronics-DAQ session*

*V- Other topics and developments*

*VI- Open discussion*

### **Organizing and advisory committee :**

*Andy Boston, Liverpool university, UK*

*Michael Carpenter, ANL, USA*

*Paul Fallon, LBNL, USA*

*Andres Gadea, IFIC-Valencia, Spain*

*Amel Korichi (co-chair) CSNSM-CNRS, France*

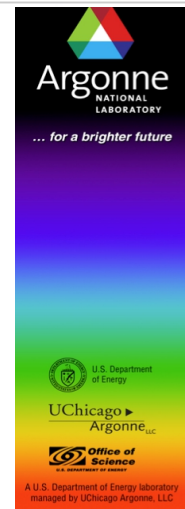

*Torben Lauritsen (co-chair), ANL, USA*

*Augusto Macchiaveli, LBNL, USA*

*David Radford, ORNL, USA*

*Olivier Stézowski, IPNL-CNRS, France*

*Dirk Weisshaar, NSCL, USA*

We are looking forward to seeing you ! Please Register
